

## NURSERY UPDATES

We would like to see and hear how our Nursery pupils are developing and progressing during the school year. To do this, we have set up a Seesaw account where you, as parents and carers can share pictures and videos you take of your child. This will also enable Mrs Siddons to keep in touch with you. We will also use this app to provide home learning should your child need to self-isolate.

To get access to Seesaw, visit [https://app.seesaw.me/#/login?force\\_login=signup](https://app.seesaw.me/#/login?force_login=signup) or download the  Seesaw Class app from the Google Play or iTunes store. Once you have opened the webpage or the app, click on 'I'm a student'.

It will ask you to scan a QR code to log in.

Once you are logged in, either on a desktop, laptop, tablet or phone, click on the green 'add' icon. This will give you options of what you want to add. Add your media then click on the green circle with a tick. You will then need to select your child and click again on the green circle with a tick. You will get a message to say that your item has been uploaded and awaiting approval from Mrs Siddons.

## FREQUENTLY ASKED QUESTIONS

Who has access to the media on this site and is it secure?

Once you have uploaded your videos or photos, these will be sent through to the adults in school linked to this account. That is Delyth Roberts (Headteacher); Paige Siddons (Nursery teacher). Please DO NOT share this QR code with anyone not linked to the school. This is for parent and carer use only.

What if my camera won't read the QR code?

You may need to download an app from the Google Play or iTunes store to read the QR code.

**PLEASE POST YOUR PICTURES AND VIDEOS – WE WOULD LOVE TO HEAR FROM YOU!**
